

## Descendants of Luther Hagar

H. K. Averill stereo view

In 1836, Luther Hagar sold 3.62 acres of land to the Federal government for \$398.20 to serve as the site for the original Cumberland Head Lighthouse. The tower was constructed in 1838 at a cost of \$3,325 by Peter Comstock. The lighthouse was made of native rubble limestone while its light consisted of eleven lamps backed by reflectors. A fourth-order Fresnel lens with a fixed-white characteristic was placed in the lantern room in 1856.
